Career Objective

Computer Science undergraduate (CGPA: 9.20) with hands-on full-stack development experience gained through an ongoing internship and self-driven projects in AI and web technologies. Driven by curiosity for how data and intelligent systems can transform the digital landscape, with a growing foundation in databases and modern web development. A quick learner who thrives in collaborative environments and is committed to bridging academic knowledge with industry-ready skills.

Education

B.E. in Computer Science and Engineering

2024 – 2028 (Expected)

St. Peter's College of Engineering and Technology, Chennai

- CGPA: 9.20 (up to Semester 3)

Professional Experience

Full Stack Development Intern

Current

Vips Tech

- Contribute to both front-end and back-end development tasks, improving application performance and scalability.
- Support bug fixing and feature enhancement using HTML, CSS, and modern JavaScript libraries.

Projects

Foundation Website Project

HTML/CSS/JS · UI/UX · Responsive

- Built a comprehensive website for non-profit organizations, featuring responsive design and intuitive navigation to serve as a foundational structure for community outreach.

Data Redaction Project

Python · Security · Automation

- Designed an automated data masking and redaction pipeline in Python to help ensure privacy compliance across large datasets.
